SCIENCE

TECHNOLOGY

ENGINEERING

MATHEMATICS

Welcome from Principal Dr. Robinson

I am excited you are interested in learning more about our school. STEM is the intentional integration of science, technology, engineering, and mathematics. At STEM Academy, we have created a student-centered learning environment in which students investigate and engineer solutions to problems, and construct evidence-based explanations of real-world Phenomena.

Curriculum Expectations

At STEM Academy you will be inspired by teachers who are passionate about growth for their students. Here you will be a part of collaborative classrooms where students will be known, valued, supported and challenged in Social Studies, Math, Science, Language Arts and Exploratory (P.E., WIN - Computer Integration, and Health).

S. T. E. M. Academy Activities

At STEM Academy you will learn and thrive in a school community which has great expectations of what you can do. You will be motivated to try new things as you participate in STEM Fridays, "Pi" Day Celebrations and Engineering Units. You will have the opportunity to explore through hands on experiments such as: Making Slime - Engineering Rollercoasters - Constructing Parachutes - Building Towers - Investigating DNA - AND SO MUCH MORE...

Afterschool Opportunities

At STEM Academy students are encouraged to discover their passions while fostering a love of learning and a desire to know more. Students may choose to participate in other activities such as:

- Boys/Girls Track
- Male Youth Summit
- Boys/Girls Basketball
- Pretty Brown Girls
- Cheerleading
- ACELLUS Robotics
